Freddie Mac Internship For Graduate Students 2026

Description

Freddie Mac offers a wide range of internship opportunities tailored to various graduate-level disciplines, including:

- **Business Analytics & Data Science:** Leverage your expertise in data analysis and visualization to support risk management, market research, and strategic decision-making.
- **Finance & Economics:** Analyze financial data, conduct economic research, and contribute to the development of innovative mortgage products and services.
- **Risk Management & Legal:** Assist with legal research, regulatory compliance, and risk assessment processes within the housing finance industry.
- **Public Policy & Community Development:** Help shape policies and initiatives that promote affordable housing and sustainable communities.
- **Technology & Software Engineering:** Develop and implement software solutions that streamline operations, enhance security, and drive innovation within the company.

Responsibilities

Depending on your chosen placement, your responsibilities might include:

Conducting research and data analysis using advanced tools and techniques.
Assisting with project development, implementation, and evaluation.
Creating presentations, reports, and other communication materials.
Participating in meetings, workshops, and industry events.
Learning and applying industry-specific software and frameworks.
Collaborating with diverse teams of professionals across departments.

Qualifications

- Currently enrolled in a graduate program related to business, finance, economics, public policy, law, computer science, engineering, or a relevant field.
- U.S. citizen or lawful permanent resident.
- Minimum GPA of 3.0.
- Strong analytical, problem-solving, and research skills.
- Excellent written and verbal communication skills.
- Ability to work independently and as part of a team.
- Proficient in Microsoft Office Suite and data analysis tools (may vary depending on placement).
