Minnesota Dept of Health Internship Students Program 2026

Description

The Minnesota Department of Health (MDH) offers internship programs throughout the year, providing students with an opportunity to gain valuable experience in public health.

MDH internships encompass various areas of public health, including:

- Epidemiology
- Community health
- Policy analysis
- Environmental health
- Health promotion and education

Responsibilities

Responsibilities will vary depending on the specific internship placement, but may include:

- Conducting research and data analysis
- Assisting with program development and implementation
- Creating presentations and reports
- Participating in meetings and outreach activities
- Learning about public health practices and policies in Minnesota

Qualifications

- Gain firsthand experience working in public health
- Network with MDH professionals
- Develop skills relevant to public health careers
- Potentially earn academic credit (depending on your school)

Experience

- Be enrolled in a Minnesota educational institution or be a resident enrolled in an out-of-state program
- Minimum GPA requirements may vary by program (generally 3.0 or higher)

Skills

- Strong research and analytical skills
- Excellent written and communication skills
- Ability to work independently and as part of a team
- Time management skills
- Proficiency in Microsoft Office Suite (Word, Excel, PowerPoint)

Job Benefits

- Previous coursework or experience in public health (preferred)
