Schneider Electric Internship Students In United States 2026

Description

Schneider Electric is seeking passionate and driven students to join our dynamic internship program in the United States for 2026. Our internships offer unique opportunities to gain valuable hands-on experience within the exciting world of energy management and automation. You will work alongside industry experts, contribute to real-world projects, and gain valuable insights into our innovative technologies and solutions.

Responsibilities

- Assist with assigned projects under the guidance of experienced professionals.
- Conduct research and data analysis related to the specific internship area.
- Contribute to brainstorming sessions and develop creative solutions.
- Participate in meetings and presentations, as appropriate.
- Learn and apply industry-specific software and tools.
- Network with colleagues and build professional relationships.

Qualifications

- Currently enrolled in an undergraduate or graduate program in a relevant field such as engineering, business, data science, information technology, marketing, or sustainability.
- Strong academic record with a minimum GPA of 3.0.
- Excellent communication, teamwork, and interpersonal skills.
- Ability to work independently and take initiative.

Experience

- Prior internship experience preferred, but not required.
- Experience in your field of study through coursework, projects, or research activities is a plus.

Skills

- Problem-solving and analytical skills.
- Strong written and verbal communication skills.
- Ability to work independently and as part of a team.
- Time management and organizational skills.
- Adaptability and willingness to learn new things.

Job Benefits

- Competitive salary and benefits package (may vary depending on location and program).
- Opportunity to work on real-world projects and gain valuable industry
